## Kingdon's Multiple Streams Framework

- Policy entrepreneurs
  - Individuals who are willing to invest their resources in order to promote their policy preferences
  - They are willing to invest their resources because they believe in their policy preferences and they believe they can influence the policy process

## Kingdon's Multiple Streams Framework

- Basic idea
  - Policy change occurs when the three streams converge
  - Policy entrepreneurs are the agents of change
  - It's a matter of timing
