Kingdon's Multiple Streams Framework
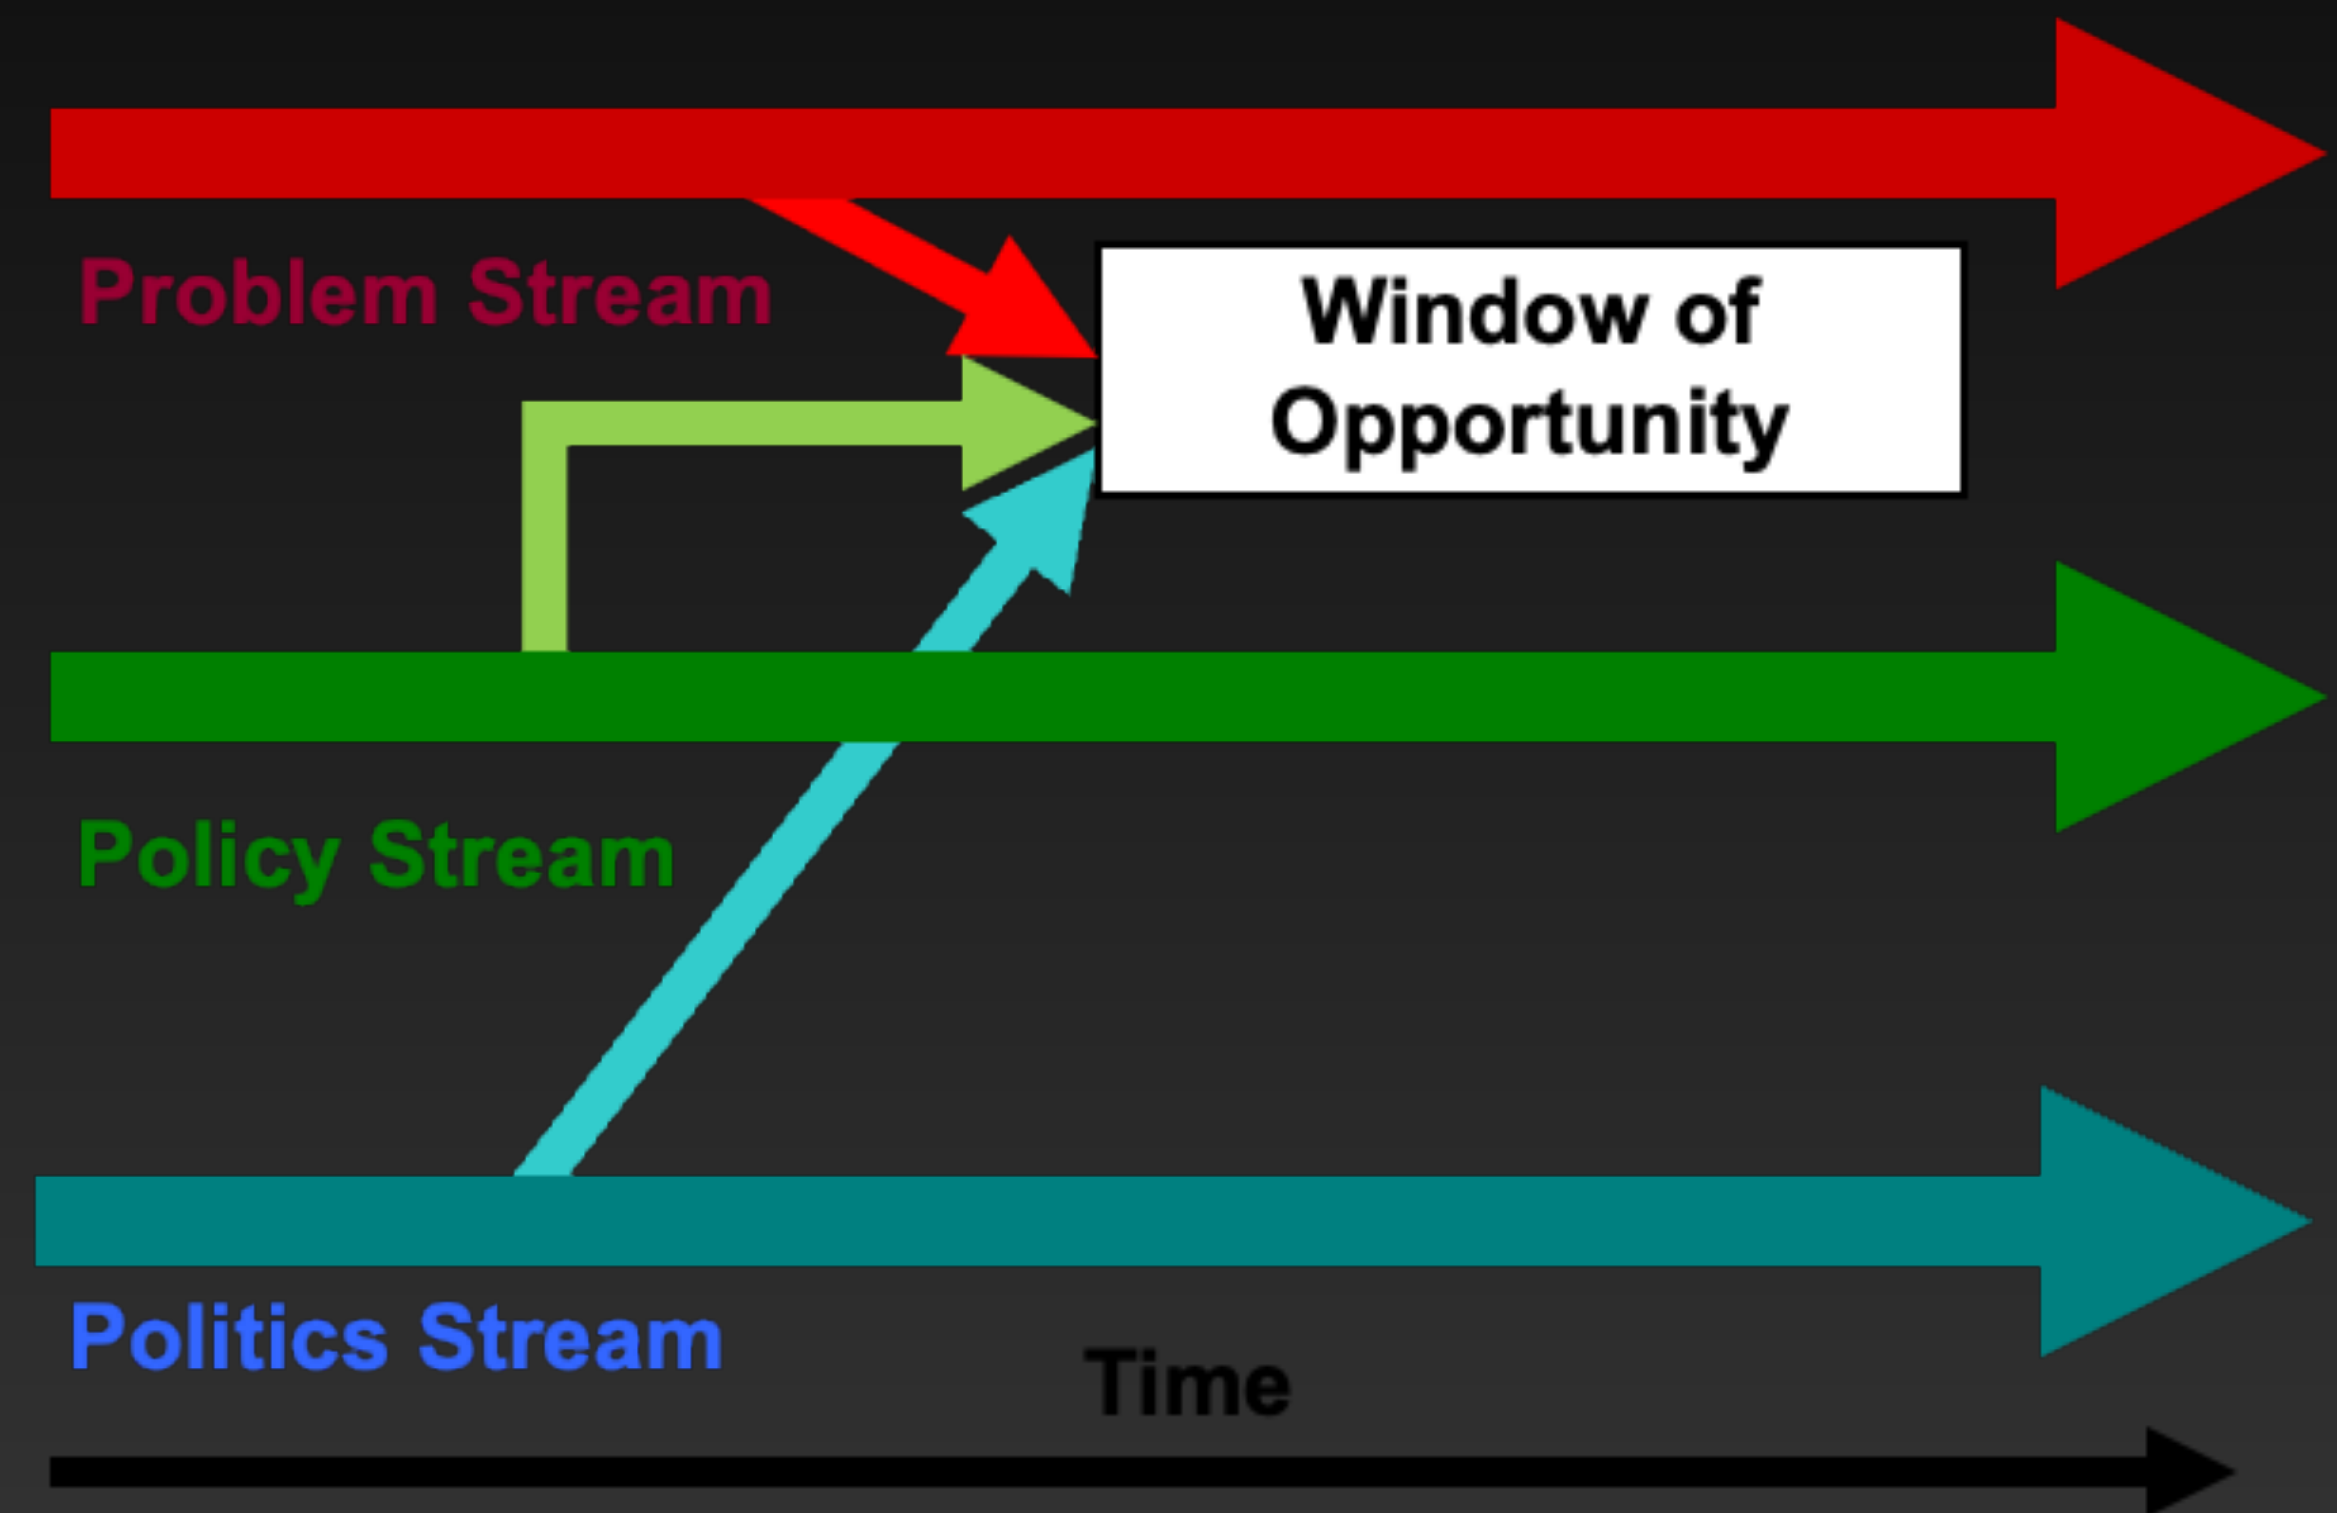

1. Problem Stream

- Problem recognition, definition, legitimation

2. Policy Stream

- Policy proposals and legitimation

3. Political Stream

- Political climate, power, events

Kingdon's Multiple Streams Framework

- Policy entrepreneurs

  - Individuals who are willing to invest their resources in order to promote their policy preferences

  - They are willing to invest their resources because they believe in their policy preferences and they believe they can influence the policy process
